Contract with an Angel Andrew M Greeley boken PDF

On a flight to Chicago, millionaire media mogul Raymond Neenan receives this bit of angelic advice and finds himself staring death, and the eternal hereafter, in the face. He soon finds that making amends in his personal and business life is no easy task. In his effort to get to the top, he's damaged a lot of lives, including his own. He's hated and feared by his parents, his ex-wife, his children, and practically everyone he's ever met. But with the Archangel Michael as his mentor, he just might be able to help some of the people he's ruined and discover that he actually enjoys it - and that maybe there's hope for that soul of his, after all.
